WAY FORWARD

Part 2B: Information Management Platform and Systems for GDLN AP

Le Vu, TDLC Sr. Technology Advisor (20 min + Q&A)

GDLN AP and TDLC Project

TDLC aims to be:

- *‘The pre-eminent platform for the exchange of ideas, know-how and expertise, contributing strongly to sustainable development in the Asia and Pacific region and across the world, especially in Africa, South Asia and Latin America, with the lessons of the Asian experience;*
- *Leading the way as a centre of excellence at the heart of a strong and dynamic GDLN Asia Pacific and at the forefront of the GDLN activities worldwide.”*

(‘TDLC Business Plan JFY2010-14’, July 2008)

Concept of 'Regional Technical Hub'

**Technology Supports and Innovation
to achieve 'value added'
knowledge business**

supported by:

- MCU bridging for videoconference, including bilingual codec (SI services can be concentrated)
- MM service / Content Management
- Integrated use of Internet-based ICT tools
